Dear Dr. Wheeler:

The Anderson Rotary Club supports and would actively participate in the South Carolina Coalition on Smoking and Tobacco Control. As a physician, I am aware that smoking is the most preventable risk factor that contributes to heart disease, the leading cause of death in South Carolina. Our Rotary Club supports our part in achieving success.

This Coalition appears focused on the key issues in reducing the negative impact of tobacco on health. I am confident that the leadership role provided by the South Carolina Department of Health and Environmental Control and the American Cancer Society will assure success.

Our club representative will be Mr. Jim Deaton. Please send him all the necessary information.

Sincerely,

Frederic G. Jones, M.D.
